

Super Combo Washer-Dryer

ADA Standard: As per ADA 611.4, Front loading machines shall have the bottom of the opening to the laundry compartment located 15 inches (380 mm) minimum and top is 36 inches (915 mm) maximum above the finish floor.

For Super Combo Washer-Dryer, bottom of the opening of the laundry compartment is located at 13.5 inches. Hence Super Combo Washer-Dryer cannot comply with ADA standards. It can only comply with ADA if either of the conditions (A or B) are complied with.

A) Unit is kept on a 1.5 inches Platform. This will fulfil ADA requirement as bottom of the opening of the laundry compartment will become 15 inches. (Top is 25.5 inches)

B) Unit is kept on Pedestal (Supplied as an accessory). This will fulfil ADA requirement as bottom of the opening of the laundry compartment will become 23.5 inches. (Top is 34 inches)
